I AM

If you are at all familiar with cellular phones and portable computing devices, then you no doubt have heard of the iPhone. The iPhone is a very popular cell phone made by Apple computer that doubles as portable computer, music player, camera, and many other devices. One can read the Bible on it and do basically anything you can do on a full sized computer.

Apple computer has named a host of their computer products using the “i” naming pattern. There is not only the iPhone, but, there is the iPad, iPod, iPod touch, iMac, iMessage instant messaging, iCloud where one stores their data on Apple’s servers, iTunes from where you download music and send it to your other “i” devices, and iLife to make movies about your life. There are probably many iHave not named, and will be, others to come.

The use of “I” proceeding terms is so popular with Apple and users of their products that many technology writers have started referring to the young generation today as the “i”generation because of the proliferation of the use of these products.

Apple is not the first to use “I.” The first use of it was one that unfortunately most users of Apples “i” products are unfamiliar with and may never make themselves familiar. In Exodus.... The LORD told Moses when inquiring who the LORD was answered, “I AM that I AM.” The LORD thousands of years ago said, “I AM.”

You may own many of Apple’s “i” products but make sure the great “I AM” is first and foremost in your life. Your “i” products will wax old and decay, but, the great “I AM” is from everlasting to everlasting. Psalm 90:2, *“Before the mountains were brought forth, or ever thou hadst formed the earth and the world, even from everlasting to everlasting, thou art God.”*

Bottom of the Peanut Butter Jar

We all know what it’s like to go through a jar of peanut butter. When it’s first opened and new, it’s easy to get the peanut butter out. When you get to the bottom of the jar, it becomes increasingly difficult.

You finally reach a point where no matter how much you scrape the sides and bottom of the jar with a knife or spoon, there is still some peanut butter remaining. It’s impossible to totally remove every single morsel of peanut butter.

Studying the Bible is much the same way. Early in our Christian lives everything in the Bible is new to us, but the longer we study, we discover there are always some things remaining we have not yet learned. There is always more in the Bible for us to learn no matter how long we have been studying the Bible.

Keep scraping the bottom of the jar. You can always get a little more.

News

—Continue to remember **Jean Coffey, Sally Marshall, Jewell Watkins, Jimmy Terry, Audrey Terry, and Alroy McDaniel.**

—**Lillan Riffle** was omitted from the December birthday list last week. She turned one year old on December 8.

—Don't forget to check our website which is listed on the front of the bulletin. We are posting the weekly bulletin, and streaming live audio of our services. I am also currently in the process of reading some chapters of the Bible each week and posting them on the site as audio that can be listened on the site or downloaded and played later.

—I can also email anyone not only copies of the bulletin but of the Wednesday night lesson as well. And, as we have for many years, we do record the audio of our services.

A young boy was trying to lift his rather large bicycle after it had fallen over but was having little success. His father noticed the struggle and went outside. He asked his son, "Are you using all your strength?" The son replied that he was. The father responded, "No you're not, you haven't asked me to help."

**Give unto the Lord what is right.
Not what's left.**
